SUMMARY

Android Engineer with over 7 years of experience. I specialize in designing and developing stable, functional, and user-friendly mobile applications. I am also experienced in leading teams and am passionate about organizing people around ambitious goals. My primary motivation is to make a positive impact on the world and improve people's lives.

WORK EXPERIENCE

06.2023 – 03.2024 (10 months), GoGoals (AI-powered task management app), Funchal
Founder

- Conducted market and competitor analysis, collaborated with product managers, designers, and analysts to refine user experience and functionality
- Built a website and developed an Android app, initiating real user testing.
- Launched successful advertising campaigns, presented the project to incubators, accelerators, and investors

11.2020 – 03.2023 (2 years 6 months), Dzen (Video Android Development Group), Moscow
Team Leader

- Managing/Hiring/Consulting of a team of android developers (5-8 employees)
- Designing an efficient video handling system
- Implementing custom component system for embedding video layouts across the app

04.2019 – 11.2020 (1 year 8 months), Yandex.Zen/Sloy (Fashion AR startup), Moscow
Android Developer

- Used Clean Architecture and approach and multi-module system in application design
- Used MVVM/MVP in UI layer

02.2017 – 04.2019 (2 years 2 months), Visitech (integrated safe system of work), Moscow
Android Developer

- Developed from scratch b2b application
- Worked with OkHttp, ButterKnife, Gson, AutoValue libraries, used Kotlin together with Java
- Implemented custom push notifications based on web sockets

PROJECTS

04.2018 – 05.2018, Karma Auth (document recognition), Moscow
Android Developer

- Creation of android application prototype for recognition documents, using Google Vision and OpenCV, in frame of IT Competition – Karma Hackathon

06.2015 – 11.2015, Artera (audioguide listening service), Moscow
Android Developer

- Development of software for museums and art-objects audio-guides
- Creation of android application prototype in frame of IT Startup Competition – Technostart 2015 (provided by Mail.Ru Group), the app was awarded with a grant.
- Realization of indoor location in museums with iBeacon and Eddystone technologies

02.2015 – 06.2015, Musix (music streaming service), Moscow
C++/Qml Developer

- Development of cross-platform app for free music listening with QT framework
- Implement of adaptive UI in all supported platforms with Qml (developed by Qt)

EDUCATION

09.2012 – 07.2018 Bauman Moscow State Technical University
Specialist of Laser and Optical Technology

09.2017 – 12.2017 Technopark Mail.Ru Group
Development of iOS applications

02.2015 – 02.2016 Technopark Mail.Ru Group
System Architecture
Courses taken: Advanced C/C++ development, Algorithms and Data structures, Java development, Web technologies, Frontend development, Databases, Development of UI, Soft Skills

SKILLS

General: Java, Kotlin, Swift, C++, Android SDK 16+, Gradle, Jetpack Compose, Coroutines, Flow, Room
Architecture: SOLID, KISS, DDD, TDD, Clean architecture, MVC, MVP, MVVM, MVI, Multimodule
Testing and Automation: jUnit, Mockito, Espresso, Kaspresso, LeakCanary, Jenkins, TeamCity

LANGUAGE

Russian – C2
English – B2/C1
Spanish/Portuguese – A1
